RE: Historically Underutilized Business (HUB) Compliance Review (**Approval Letter**)

Dear Mr. Orzabal:

**Congratulations!** The Texas Building and Procurement Commission (TBPC) is pleased to inform you that we have completed our HUB certification and compliance review and have determined that your firm meets the eligibility requirement of the program. The eligibility requirements used are in accordance with the Texas Government Code, Chapter 2161; the TBPC adopted HUB Rules; and the HUB Certification and Compliance Program Operating Policies and Procedures.

Your company shall be certified and listed in the State's HUB Directory. A HUB certificate and a program orientation package will be forwarded to your office to assist you in marketing your business to Texas State agencies and universities.

Should any changes occur in the ownership, day-to-day management, or control of the firm, please notify us in writing within 30-days of such changes, so we can insure your continued eligibility. Upon receiving your notice of change(s), we will administer the requested changes in accordance with the State's statutes, HUB Rules and procedures.

Thank you for your patience, assistance and cooperation. We wish you much success with your business ventures. Should you have any questions, please do not hesitate to contact me at 463-3174.

Sincerely,

A handwritten signature in black ink, appearing to read "Lynn H. Lenz", with a long horizontal line extending to the right.

Lynn H. Lenz  
HUB Compliance Analyst
